Standard Dev.	1.05		
Variance	1.09		

Q12

Please explain how you think the value of attending Pittcon has changed — either for better or worse.

The value I receive is meeting with business contacts and checking out the competition.

Pittcon is loosing its value because you can now use the internet for information. Save money and time of not attending. Basically a paid vacation for some.

Pittcon should be every two years like Analytica in Munich which will take place right after Piuttcon. March 23 to 27,2010.Achema is every three years.Much greater value every two or three years.

6356	7	7	4

6357522

6357563

There are fewer vendors and smaller 6357360 presentations by each vendor.

It's less and less about the capabilities of the instrument and more about the 'sales pitch' those salesmen will promise anything!
6357487 More variety/more people/more papers
6357501

More people are conducting research on-line and due to economic reasons less companies 6357510 exhibit and less visitors.

Infomatics grouped together...my usual vendors usually near each other so I don't waste time on every aisle...also new products In this climate it's hard to get approval to attend, so we have to rely on other means of getting the needed information.

6357579 Exoanede scope

	lower participation rates
	I beleive the value is in having a one stop
	approach to new technologies, and networking with others who are in your field. I
	like being able to talk to vendors and scientists rather than getting all my info from
6357950 6358078	the internet. Have never attended
6358166	The vendor websites are more helpful now. My first Pittcon trip was recently, I do plan on
6358265 6358365	attending another when it is closer. Seems like mostly vendor participation
	Much more information is available on
6358607	products via the internet Emphasis has moved to Biotech and Pharm
	instruments and apps I am still more interested in analytical chemistry and related
6358861	instrumentation
6358973	Electronic recap and literature - more promotion
6358983	more marketing, less chemistry, more focused towards quantitiation
6359094	Decreased in value for me because I do very little analytical work now.
6359127	not as many booths or manufacturers, many Thermo companies no longer exhibit, fewer attendees
	I think that it is still beneficial to see the
6359146	products and talk to the vendors but the current economic climate makes it even more difficult to travel that in the past.
	I have felt that PittCon has become more of a vendor show case than a place to learn more
6359200	technically about equipment offerings
6359422	I don't know Smaller exhibition, less new product
6359464 6359633	introduction, less attendees Too much pharma
0000000	·
6359640	It is smaller than previous and some vendors I would like to talk to are no longer exhibiting.
	Pittcon used to be THE show, now it's one of many. Both vendors and attendees need to
6359684	budget for the many versus the few
6359684 6359941	I think value is the same. I've only attended twoseven years apart, and
6359941 6360035	I think value is the same. I've only attended twoseven years apart, and I didn't notice much change.
6359941	I think value is the same. I've only attended twoseven years apart, and I didn't notice much change. Fewer vendors are attending.
6359941 6360035	I think value is the same. I've only attended twoseven years apart, and I didn't notice much change.
6359941 6360035	I think value is the same. I've only attended twoseven years apart, and I didn't notice much change. Fewer vendors are attending. Even though it is smaller that several years ago, the value of the conference has increase because of changes the organizers have
6359941 6360035 6360439	I think value is the same. I've only attended twoseven years apart, and I didn't notice much change. Fewer vendors are attending. Even though it is smaller that several years ago, the value of the conference has increase because of changes the organizers have made in recent years, including the Networking Sessions and the Expo Only time.
6359941 6360035 6360439	I think value is the same. I've only attended twoseven years apart, and I didn't notice much change. Fewer vendors are attending. Even though it is smaller that several years ago, the value of the conference has increase because of changes the organizers have made in recent years, including the
6360470 6360670	I think value is the same. I've only attended twoseven years apart, and I didn't notice much change. Fewer vendors are attending. Even though it is smaller that several years ago, the value of the conference has increase because of changes the organizers have made in recent years, including the Networking Sessions and the Expo Only time. cost benefit has declined cuts out a lot of the leg work
6359941 6360035 6360439 6360470 6360670 6360685	I think value is the same. I've only attended twoseven years apart, and I didn't notice much change. Fewer vendors are attending. Even though it is smaller that several years ago, the value of the conference has increase because of changes the organizers have made in recent years, including the Networking Sessions and the Expo Only time. cost benefit has declined

I have attended Pittcon in Orlando several times over the past 10 years.

It has changed for the better since increased number of manufacture use the opportunity to

showcase their products

6369046 Better

6368910

6371168

I find it beneficial to meet and discuss productlines with vendors in a setting where all the players are in the same room at the same time. It allows for greater and more

timely comparison.

6371410 more alternatives for info

6371496 locations are too esoteric not centrally located

> Not enough changes from year to year to support an annual show. Vendor base and

6371706 attendees have declined

no conclusion can be made based on the

6371750 information I have

variety, increased comparison, product 6376167 knowledge

6376230 Not much microbiology

Markets have changed and so have manufacturer's, this will help me to keep in touch with new trends and forge new

6376607 relationships and improve old ones.

6380485 for Better

6383441 improving in latest technology information I have only attended one, so I can't really

6399027 comment on this.

6414973 worse

More technical

disscussion/posters/symposia/short courses 6436182

on frontiers of analytical chemistry Lower attendance is not a good thing. Sign of

6440309 the economic times.

fewer vendors, lack of new product

6453075 announcements.

The value of attendees has gone down along

with the number of viable attendees. Price of booth space and other expenses have gone

6460481 up, up, up.

i know new products an advance tecnique in 6468074

quality control

More info is more easily available from 6475614

internet, trade magazines

The value increased but no opportunity yet to 6505416

attend again
